

**ARKTIS**  
GROUP

# CAPABILITY STATEMENT

Industrial subcontracting and execution partner for complex projects

ELECTRICAL	MECHANICAL	PLC	COMMISSIONING	QA/QC
------------	------------	-----	---------------	-------

Mobile crews | Defined scopes | Compliance workflow | Site reporting | Handover discipline

## COMPANY OVERVIEW

**ARKTIS.GROUP** provides mobile industrial crews and project support for complex sites where deadlines, quality, HSE, compliance and documentation matters. The company supports EPCs, general contractors, MEP contractors, automation integrators, factories, data center owners/operators and industrial project owners.

## CORE COMPETENCIES

<b>Electrical Installation:</b> Cable routes, containment, panels, control cabinets, power supply and equipment connections.	<b>Mechanical Installation:</b> Conveyors, sorters, racking, cranes, structures, alignment and site installation support.
<b>PLC / Automation Support:</b> PLC/HMI wiring, I/O checks, sensors, troubleshooting and commissioning readiness.	<b>Engineering, Site Coordination and QA/QC:</b> Scope review, reports, checklists, photo evidence and handover packs.
<b>HSE / Compliance Workflow:</b> A1/posting checks where applicable, safety/access records, permits, insurance proof and certificates.	<b>Crew Mobilization and Subcontracting:</b> Fixed scope, T&M, project support and emergency deployment for qualified scopes.

## DIFFERENTIATORS

- Built for contractor-controlled environments: ARKTIS.GROUP fits under GC, EPC, MEP and automation integrator processes.
- Compliance and document gates are part of the operating model, from A1/posting workflow to QA/QC records and handover evidence.
- Cross-border European focus with service areas across DACH/Germany, Benelux, Scandinavia, Poland/Czechia/Slovakia, Baltics, UK and Switzerland.
- Fast mobilisation model for suitable scopes; we prototype positions a 3-7 day target subject to country, documents and site access.
- Multi-scope execution depth across electrical, mechanical, controls support, commissioning, site coordination and QA/QC.

## PAST PERFORMANCE / EXPERIENCE

Project references span automotive and EV plants, intralogistics/warehouse automation, air cargo logistics, data centers and heavy crane systems. Named references include Mercedes-Benz, BMW, Volkswagen/Audi, bol.com, airBaltic, Vantage, AWS, Equinix, Ardelt, Mantsinen, Liebherr and MELCAL.

<b>Automotive / EV</b> Production-line electrical installation, logistics systems and launch support.	<b>Data centers</b> Critical-power MEP/electrical works, BMS/EPMS and commissioning readiness.	<b>Intralogistics</b> Conveyors, sorters, shuttle/miniload zones, control cabinets and sensors.

## COMPANY DATA

**Company:** ARKTIS.GROUP  
**Legal name:** ARKTIS.GROUP SIA  
**Registration:** LV40203683591  
**Website:** <https://arktis.group/>  
**Email:** [hello@arktis.group](mailto:hello@arktis.group)  
**Phone:** +371 26118776

## TARGET CLIENTS

- EPCs and general contractors
- MEP contractors
- Automation integrators and OEMs
- Factories and industrial owners
- Data center owners/operators

## SERVICE AREAS

DACH/Germany, Benelux, Scandinavia, Poland, Czechia, Slovakia, Baltics, United Kingdom, Switzerland, Middle East and USA/Canada.

## PROJECT FIT

<b>Crew</b>	3+ people
<b>Duration</b>	2+ weeks
<b>Scope</b>	Industrial work
